# Oxford Parkinson’s Disease Centre Seminar Series 2014

<table>
<thead>
<tr>
<th>Date and Time</th>
<th>Speaker and Title</th>
</tr>
</thead>
</table>
| 21 Jan 4pm    | Dr Max Little, Aston University  
Dectecting Parkinson’s by voice analysis |
| 11 Mar 4pm    | Professor Anthony Schapira, Institute of Neurology, University College London  
Glucocerebrosidase in Parkinson disease: insights into aetiology and potential therapies |
| 10 Jun 4pm    | Dr Sabine Hilfiker, Institute of Parasitology and biomedicine  
Unravelling the pathogenic roles of LRRK2 in Parkinson’s disease |
| 8 Jul 4pm     | Professor Thomas Gasser, University of Tübingen  
Genetic architecture of Parkinson’s disease |
| 2 Sept 4pm    | Dr Patrick Lewis, Reading University  
Understanding LRRK2 – from cellular function to human disease |
| 21 Oct 4pm    | Professor Ralph Nixon, New York University School of Medicine/Nathan Kline Institute  
Lysosomes: the Achille’s heel of neurons in neurodegenerative disease |
| 25 Nov 3pm    | Professor Paola Piccini, Imperial College London  
Pre- and post-synaptic mechanisms in L-dopa-induced dyskinesia: evidence from functional imaging |
| 9 Dec 4pm     | Professor Matt Farrer, University of British Columbia  
Parkinsonism: etiology, pathogenesis and pathology from a genetic perspective |
